

Analyst of New Business Opportunities in the Energy

We are the **University Centre for Energy Efficient Buildings of the CTU** based in Buštěhrad near Kladno. We connect science with the commercial sphere and bring new solutions to the market that help our users to be one step ahead in technology. Our passion is buildings, cities, energy, environment, innovation and sustainability. We focus on applied research and development in grant projects and contract work for companies.

We are looking for a new colleague to analyse business opportunities in the energy sector for our research department.

Job description

- Identification and mapping of stakeholders in the provision of new services in the energy sector
- Identification and modelling of new business cases in the energy sector
- Evaluating the financial efficiency and other KPIs of individual solutions throughout their lifecycle based on data and analytical models

Awaiting

- Higher education
- Orientation in the operation of energy commodity and emission allowance markets in the energy sector
- Knowledge of the energy market trading process (important players, legal limits, ways to optimise returns, financial flows)
- Orientation in current trends in the provision of emerging services in the energy sector (flexibility aggregation, active customer, community energy, sector-coupling, etc.)
- Insight into new business opportunities in the energy transformation
- Ability to communicate professionally in written and spoken English
- Initiative and creativity
- Ability to generate ideas and translate them into national and international project plans
- Excellent communication and presentation skills
- You know how to establish and develop contacts with partners in the Czech Republic and abroad

We offer

- Part-time or full-time HPP (minimum 0.6)
- Flexible working hours
- Possibility of occasional work from home
- Interesting and innovative environment on the border between academic and corporate environment
- Opportunity to implement your own ideas and personal development
- Business laptop
- 30 days holiday
- Interesting and varied work in a friendly team
- Applying and developing knowledge and skills
- Corporate and team sports and cultural events
- Allowance for meals, language courses and further training
- Contribution to superannuation or DIP
- Internal coach
- 30 days holiday
- Kids and dogs friendly office
- Free coffee and tea at the workplace
- Vitamin days
- A system for sharing transport by car from Prague, especially from around Dejvice and metro A
- Company transport from Bushrad to UCEEB and back
- All day reception services
- Start immediately or by agreement
- Opportunity to work in science and research and to be involved in projects that support sustainable development
